

St. Patrick's School

Win a **\$20,000***
Outdoor Classroom

We need your help to support our bid to win \$20,000. St. Patrick's School needs your votes. We have been chosen as a finalist in a nation wide contest to win \$20,000 towards building an outdoor classroom at the school. The project would allow students to have the opportunity to do science, religion, art, sensory-motor, projects, presentations, and experiments outside, using the environment as the foundation.

The school has one of the highest utilization rates in the city, and an outdoor classroom would provide teachers with more options for creativity in their programs. **In order to win the \$20,000, we need the public's support in an online vote.** The winner will be determined by online voting only.

The voting begins on today **Wednesday, September 21st**, and **each person can vote every day** for six weeks. We are competing against 9 other schools from across the country. You can support the school's bid by voting at www.majesta.com each day **until November 4th**. The first time you go to vote you do need to register so it takes a couple of minutes. However, it will be quicker every day thereafter. You need a valid e-mail address and need to be at least 18 years of age to vote. On the school webpage frontpage there is a quick link to the Majesta website to enable you to access the site quickly.

Pass along the information to your friends, co-workers, and family, because we all share the same vision for improving education for the betterment of our entire community. Spread the word! It's for our kids!

Thanks you so much in advance! Join the facebook page "Win \$20,000 for St. Patrick's School" for updates.
